SHALOH HOUSE JEWISH DAY SCHOOL

Welcome

At Shaloh House Jewish Day School, a highly positive experience is forged by a unique integration of an excellent general education with meaningful Jewish studies. Our goals are to help children develop into well- educated Americans and proud Jews who are knowledgeable about their rich heritage, by providing them with academic and spiritual tools which will serve them throughout their lives.

Our present families come from a wide range of backgrounds, from unaffiliated to Orthodox. Our objective is to teach the splendor and depth of Judaism, based on Orthodox teachings, in a way that is sensitive to family differences and expectations.

The school has adopted an innovative teaching format used in many other countries with great success. Specialists in math, science, history, and English share their knowledge and expertise, rather than having a generalist spend most of the day with one class or grade. Hebrew Language and Judaic Studies, including Jewish customs and holidays, are an integral part of our curriculum. The school's dynamic environment and unique approach fosters students' curiosity, cultivates their imagination, encourages creative expression, values their initiative, and engenders critical thinking skills.

Our caring and nurturing teachers are role models for the values we cultivate in our children. Low student-to-teacher ratio translates into personal attention and customized lessons where children progress rapidly at their own level. Children also benefit from our arts and crafts, music, computers, and gymnastics programs – each of which features fun-education components with experienced teachers.

Award-winning academic excellence and commitment to Jewish values combine with a warm community spirit to make the Shaloh House Jewish Day School an extraordinary place for children to learn and thrive.

My staff and I look forward to answering any questions you might have, and to welcoming you and your families into our wonderful educational community.

Baruch Habah,

Rabbi Dan Rodkin
Executive Director
